

Case Study – Greenfingers Landscape Ltd. ISO9001, ISO14001 and OHSAS18001

Greenfingers Landscape Limited offers a wide range of Landscape and Ground Maintenance services to both public and private sectors throughout the UK.

ISO Team

Trudie Newhouse - RKMS
Lisa Higginbottom - Greenfingers

Project Objectives

To assist the company with installing an integrated management system to ISO9001, ISO14001 & BS OHSAS18001:2007.

The company wished to secure a framework agreement with the Local Authority; they had worked with the Local Authority for a number of years and had installed a quality management system but the Local Authority were looking for further commitment in terms of environmental and health and safety performance to ensure the impact of activities on residents was minimised.

Assistance Provided

- A management system was put in place to complement existing procedures and meet the requirements of Quality, Environmental and Health & Safety standards.
- This involved rewriting the Health & Safety policy/arrangements and reviewing training requirements and records control.
- Legal compliance audits were completed at Depots and at Head Office.
- Standard awareness and internal audit training was delivered to all management staff.
- Internal auditing was carried out by RKMS due to Company workload.

Outcomes

- An external audit was completed by UKAS accredited ACS Registrars and accreditation was achieved for all 3 standards at first attempt.
- The Company continue to employ RKMS to carry out annual audits.

“RKMS worked really well with Greenfingers in setting up our systems and us gaining the 18001, 9001 & 14001 accreditations. The accreditations have helped our business greatly when it comes to tendering for work as the accreditations are vital part of the process. The ongoing support and assistance RKMS have shown in meeting with the changing and challenging needs of our growing business has been excellent and we would recommend them without hesitation.” **Lisa Higginbottom, Director.**
