

WH Scott & Son Engineers Ltd

W.H SCOTT & SON ENGINEERS LTD
founded 1897

INDUSTRY

Lifting / Infrastructure

“Dealing with RKMS has been excellent from day one. They have worked quickly to understand our business and integrated themselves into all of our operations.

During each audit the Certification Body has commented about the robustness and useability of the system developed by RKMS. This has been echoed by our staff who have fully bought into the system and the benefits it generates.

SERVICES

ISO9001
ISO14001
ISO45001
EN1090
PAS2060
HSQE Support

We have also started our PAS2060 journey with RKMS which is progressing well. RKMS carry out all internal audits at our depots and client sites. They provide clear and concise audit reports to the management team at WH Scott and assist in manging the close out of any OFI/NCR's raised.

I would have no hesitation in recommending RKMS for HSQE consultancy and audit activities. As a result of their excellent work WH Scott has extended their contract with RKMS beyond the original agreed term.”

OUTCOME

Successful certification leading to larger contracts

WH Scott & Son Engineers, which includes Hiltonne Engineering (our fabrication and design department) and Re-Ropes Ltd our elevator division, is a market leader in the design and manufacture of highly engineered lifting and handling solutions, used in lifting, rigging and material handling applications. We stock large amounts of high running lifting and rigging products, such as electric chain hoists, manual chain and lever hosts, shackles, snatch blocks, sheaves and all related fittings, G8 & G10 chain slings and components like hooks, swivels, connectors and clamps under leading brands, which include Tiger, ELD, Stahl, and Righetti to name a few.

WH Scott & Son Engineers supports Critical National Infrastructure including MoD naval dockyards and nuclear power stations.

ISO Project

RKMS provides a full HSQE support service, overseeing customer and supplier audits from the likes of Babcock, Constructionline, Acclaim and Safe Contractor, as well as a host of international standards such as ISO9001, quality management, ISO14001 environmental management, ISO45001 OH&S management and EN1090 structural steel fabrication.

This service means we are effectively embedded as their HSQE department, offering WH Scott & Son Engineers support from a team of highly qualified and experienced professionals.

RKMS provides ongoing support including undertaking all internal audits, chairing the monthly HSQE committee meetings, hosting external audits by customers and certification bodies, undertaking accident and incident investigation, addressing non-conformances and identifying continual improvement initiatives, which in turn enables the organisation to grow and improve services.

Outcome(s)

WH Scott & Son Engineers has been successful in gaining certification to all standards at the first attempt. This has in turn opened more opportunities for the business to tender for and secure larger contracts in both the private and public sector.

The company is now in the process of working to achieve PAS2060 Carbon Neutrality.
